Only \$180 for entire semester!

Casino style Salsa is a group dance which originated in Havana, Cuba in the 1960s by a group called Guaracheros de Regla. In this dance, couples dance in a circle while one dancer, designated as "The Caller", provides hand signals or calls out the moves which will be executed by every couple in the circle simultaneously. Casino salsa involves switching dance partners during the song, which makes for an enjoyable social event.

This is a beginner class for any fitness or dance level.

Come join the fun with or without a partner and
ENJOY the Saturday Salsa Experience!
